Subject: Waste and Recycling Rooms Floor 2 to 8: (Garbage Chute Rooms)

Dear Gateway Residents,

It has come to our attention that some residents have been storing recycling in these rooms, under the assumption that someone will come by and dispose of their recycling and organics for them...this is **not the case**.

It is expected that residents place their own recycling and organics in the main garbage room on level 1. All other waste is to be placed down the waste chute provided.

The words "waste and recycling" will be removed from these doors so there is no confusion and will be replaced with "GARBAGE CHUTE" this week.

Thanks for your cooperation.
